## Who we are

Over more than 40 years, Al-Darwish Construction & Trading Est. was established in 1978 with its office in Dammam, Eastern Province of KSA. However, one of the advantages of Al-Darwish is the capability to serve a wide region over the whole kingdom of Saudi Arabia. Our reliability and credibility builds long term business relationship with our customers.

We are the most reliable and authentic company in the field of trade as a registered supplier to many governmental bodies such as SWCC and ARAMCO.

Woodworking as house and office furniture all including doors, windows, racks, cabinets, office partitions...etc. Also steel works of all types of doors, windows, grills, gates and so on. Taking a complete building services including design and implementation such as plumbing, electricity, steel, wood, aluminum works.

Our highly skilled team with wide experience of engineers and most devoted staff. We always consider our customers satisfaction about our work is a top priority.

# Values

Commitment to quality is our basic attitude as we do our work, as it is the preliminary value raising company morals. we are always committed to maintain quality standards.

Time frame is a top priority as we highly understand being part of large projects requires wise management of time and resources and obligation to deadline as we did with 100% of our projects

# Management

At Al-Darwish we are fully aware with the importance of management of time and resources, that's why our GM and project manager are well focused in successful management techniques to ensure that every team member do the right job at the right time.

We are well known for our following activities:

## Radiators & Tanks workshop

At Al-Darwish Radiators & Tanks department, we manufacture high quality replacement aluminum oil & air coolers ideal for compressors, trucks, mixers, etc. as well as copper and brass heavy-duty radiators for generators, loaders, and other construction equipment and for offshore engines, too.

Al-Darwish Service also performs reconditioning of clutches and frictions, overhaul & re-tubing of heat exchangers, and repairing jobs of various products.

one of the unique features of our products is the aluminum cooler materials which is imported from purposely built extrusion mold so made it compact for strength and durability. Added more to the quality of the product is the high skill and experience of the certified welders.

The safety of our team members can not be compromised, that's why we highly comply with all safety standards & hazard prevention and control.

Finally, we are comitted to serve our customers with all our abilities and resources and our top priority is their satisfaction.
